All in all, i am very disappointed about the operation of DMV and CPUC!

On 1/10/23 when i checked my driver statement of applicant(PL-739A) on portal, list of drivers i was listed as a driver of a Limousine was a fat 0 and even I was not counted as a driver!

After it was corrected it is showing me and my driver Erick Orloff, but shows my driver license as class A when i never owned a class A license in my life!!!

I can see how CPUC got confused about my vehicle annual inspection when i did not own that limo until 1/1/22 till 6/28/23 and DMV record was lagging and at the same time CPUC sent a notice of inspection renewal on 5/4/22 when my annual inspection was already done on 2/24/22 by CHP William A Reiber!

Please disregard this citation since it was a mistake on CPUC part due to lack of communication with DMV!

Sincerely,
